

# FEDERAL EXECUTIVE SYSTEMS INTEGRATOR ROUNDTABLES

Trezza Media Group presents a series of Executive Systems Integrator Roundtables to discuss leading technology and business mission issues affecting federal government agencies.

Held at the Tower Club in McLean, Virginia, these Thought Leadership dinner roundtables bring together leading federal government contractors and industry experts to discuss contracting opportunities, best practices and ways to solve government's business and technology problems.

Discussions center around issues affecting Defense and Intelligence Agencies, DHS and civilian agencies. A government executive from one of these agencies is also invited to attend.

Each roundtable features executives from companies like Lockheed Martin, Northrop Grumman, CSC, Booz Allen Hamilton, SAIC, General Dynamics, Unisys and other top government contractors. Co-sponsors participate in roundtable discussions and have 1 executive each at the table, which will not exceed 20 total guests.
